

SHEILA KINURIU

Licensed Clinical Officer · AI Fluency & UI/UX Intern · Aspiring Product Analyst, Healthtech

sheilakinuriu@gmail.com · [linkedin.com/in/sheilanduta](https://www.linkedin.com/in/sheilanduta) · github.com/kinuriu · kinuriu-portfolio.vercel.app

Licensed Clinical Officer with three years of frontline outpatient and emergency care in Kenyan hospitals, now building AI-assisted healthcare automations and data-driven products. I bring operational context most technical teams don't have: I've lived the workflows I'm now automating, from patient intake to insurance verification to no-show risk.

SKILLS

Clinical & Healthcare Ops: Patient assessment and diagnosis, EMR documentation, care coordination, revenue cycle workflows, patient communication

AI & Automation: Make.com, n8n (self-hosted), Claude API via OpenRouter, prompt engineering, workflow automation

Data Analysis: SQL, Excel, Power BI, Amazon QuickSight

Design: Figma, UX research (personas, journey mapping), HTML/CSS

EXPERIENCE

AI Fluency & UI/UX Intern · FlyRank AI · Remote

Jul 2026 – Present

- Building a three-track portfolio (AI automation, data analysis, UI/UX design) as a structured internship deliverable.
- Shipped two live healthcare automations: a Make.com no-show risk predictor and a self-hosted n8n revenue-cycle workflow.
- Leading UX design on Mindful Moments, an internal application, from personas and journey maps through screen design in Figma.

Healthcare Virtual Assistant & Medical Scribe · Upwork · Freelance, Remote

Aug 2024 – Present

- Capture accurate patient histories, exam findings, and treatment plans directly in EMRs for remote clinicians.
- Combine documentation accuracy with patient-facing communication, reducing errors and improving visit efficiency.

Clinical Officer · Kenya · Outpatient & Emergency Care

Jun 2023 – May 2026

- Independently assessed and managed 2,000+ patients in Q1 2026 alone at Murang'a County Referral Hospital (Contract, Dec 2025–May 2026).
- Provided outpatient consultations, diagnosis, and treatment planning at Kirinyaga Treatment Centre (Aug 2025–Nov 2025).
- Completed a 12-month rotational internship across outpatient, emergency, medicine, surgery, pediatrics, and O&G at Kiambu County Referral Hospital (Jun 2023–Aug 2024).

SELECTED PROJECTS

Patient No-Show Risk Predictor: Make.com + Claude (via OpenRouter) score no-show risk from appointment and patient data, logging a plain-language reason and suggested action to Notion. [View on GitHub](#)

Patient Intake-to-Payment RCM Automation: Self-hosted n8n workflow automating 4 of 15 revenue-cycle stages (intake through prior authorization), tested end to end on synthetic data. [View on GitHub](#)

EDUCATION

Bachelor of Science in Clinical Medicine and Community Health, Jomo Kenyatta University of Agriculture and Technology, Dec 2022

CERTIFICATIONS

- AWS Certified AI Practitioner, completed June 2026
- Anthropic Academy (11 completed), including AI Fluency: Framework & Foundations (10/10), Claude 101, Introduction to Model Context Protocol, AI Capabilities and Limitations, and AI Fluency for Builders

Currently pursuing: Data Analytics, ALX Africa (expected Sep 2026) · AWS Future Agentic Business Professional · Claude Code 101
